

SHIWANGI MISHRA

Python Backend Developer | REST API & FastAPI | Backend Development | 8 Months Experience

+91 7746009759 | mshiwangi462@gmail.com | Bhilai, Chhattisgarh
linkedin.com/in/shiwangi-mishra-b47b76284

PROFESSIONAL SUMMARY

Results-driven Python Backend Developer with 8 months of hands-on professional experience in backend development, designing and deploying production-grade REST APIs using FastAPI and SQLAlchemy. Contributed to a live medical community platform (Docplexus) serving real users, with responsibilities spanning API development, database operations, JWT authentication, and push notifications. Proficient in OOP principles, version control (Git), and Agile development practices. Proven ability to build scalable, maintainable backend systems. Eager to grow with a high-impact engineering team.

TECHNICAL SKILLS

Languages	Python 3.x, Java, SQL, HTML, CSS, C, C++
Frameworks	FastAPI, Flask, SQLAlchemy, Pydantic, APScheduler, LangChain
Databases	MySQL, SQL
Cloud & Services	AWS (EC2, IAM)
Authentication	JWT, OTP-based Auth, Password Reset
AI / LLM	Google Gemini, Claude (Anthropic), LangChain, Prompt Engineering, Google ADK
Tools	Git, GitHub, Postman, Linux CLI
Concepts	REST API Design, OOP, Agile / Scrum, Version Control, Backend Development
Exposure	React Native, Angular

WORK EXPERIENCE

Python Backend Developer | Cometa Intellect LLP, Raipur Nov 2025 – Present

- Designed and implemented **10+ REST API** endpoints on the Docplexus medical community platform (FastAPI + MySQL), handling production traffic across 3 client types — web, mobile, and admin panel.
- Built a JWT-based authentication module with OTP via email/SMS and password reset flows, securing access for **3+ user roles** across all clients.
- Developed database operations using SQLAlchemy with OOP principles across **26+ models**, improving query throughput for high-concurrency endpoints.
- Configured APScheduler background jobs running every 15 min, delivering **200+ daily push notifications** for likes, comments, follows, profile views, and webinar reminders.
- Introduced a services layer architecture (auth_service, otp_service) reducing route handler code by **~35%** and improving maintainability following Agile practices.
- Worked alongside front-end teams (React Native & Angular) on API integration tasks and gained hands-on exposure to production deployment on Linux.

Android App Developer Intern | Wooble Lab, Bhilai Mar 2025 – Sep 2025

- Built VocalVision — a cross-platform app using React Native with a Flask backend supporting **5+ languages** for OCR extraction, AI-driven summarization, translation, and text-to-speech output.
- Integrated Transformer models for on-device summarization and stored personalized user data for **100+ users** in MySQL using OOP-based backend design.

- Researched real-time temperature data pipeline integration between a thermometer sensor and a drone system.

PROJECTS

Gamification in Education

Sep 2024 – Jan 2025

- Developed a learning platform with gamified elements supporting **3+ user roles**: user auth, personalized dashboards, progress tracking, and a custom crossword puzzle generator.

VocalVision – Intelligent Screenshot Analyzer

Mar 2025 – Sep 2025

React Native · Flask · OCR · Transformer Models · Google Translate API · MySQL · TTS

- End-to-end pipeline: screenshot to OCR extraction to AI summarization to translation to audio output in **5+ languages**.
- Designed for accessibility; serves learners, researchers, and visually impaired users.

Pratyahar Yoga School Website

2025

Gatsby · React · SCSS · Google Analytics

- Built a production static website with SEO optimization achieving **90+ Lighthouse score**, responsive carousels, and Google Analytics integration.

Docplexus – Medical Community Platform

Nov 2025 – Present

FastAPI · SQLAlchemy · MySQL · JWT · APScheduler · Python · REST API

- Live production platform with mobile (React Native), web portal (Angular), and control panel serving medical professionals.
- Backend supports posts feed, social notifications, webinars, AI chatbot, and multi-flow authentication.

WhatsApp Business Cloud Messaging Platform

May 2026

Go · Vue 3 · Flutter · WebRTC · WhatsApp Graph API

- Multi-tenant messaging and calling platform with Go backend, Vue 3 web agent inbox, and Flutter mobile client.
- Exposure to distributed systems, WebRTC calling, multi-platform architecture, and WhatsApp Business API integration.

EDUCATION

Master of Computer Applications (MCA)

2023 – 2025

Bhilai Institute of Technology, Durg | 78.15%

Bachelor of Computer Applications (BCA)

2019 – 2022

Sai College, Bhilai | 81.70%

Senior Secondary (XII) – Science, CBSE

2019

54.00%

Secondary (X) – CBSE

2016

CGPA: 7.60 / 10

CERTIFICATIONS & TRAINING

- **Cloud Computing with AWS** – AICTE Virtual Internship | May–Jun 2024 | Score: 87% (EC2, S3, VPC, IAM, RDS, Security)
- **Java Programming** – Spoken Tutorial, IIT Bombay | Score: 85%
- **C Programming** – Spoken Tutorial, IIT Bombay | Score: 77.5%

ACHIEVEMENTS

- Ranked **1st** in C Programming Contest during BCA (graduation level).

- Scored **87%** in AWS Cloud Computing certification final assessment.
- Actively contributed to a **live production backend** (Docplexus) within the first month of joining as a developer.
